ARC Facilities

Transforming Access to Facilities Information

Innovative Location Maps

Quickly locate As-Builts, shutoffs and equipment

As-Builts

Easily locate and open As-Builts by simply tapping a color coded area. As-Builts are organized by renovations, floor, and date.

Shutoffs

Find shutoff locations quickly with interactive maps. Tap an icon to get details including pictures and videos.

O&M Documentation

Instantly locate equipment on any campus, building or floor. Tap a piece of equipment to access O&Ms, maintenance, and service details.

Instant Access from the Field

Get everything you need, right from your phone or tablet

Find Shutoffs Faster

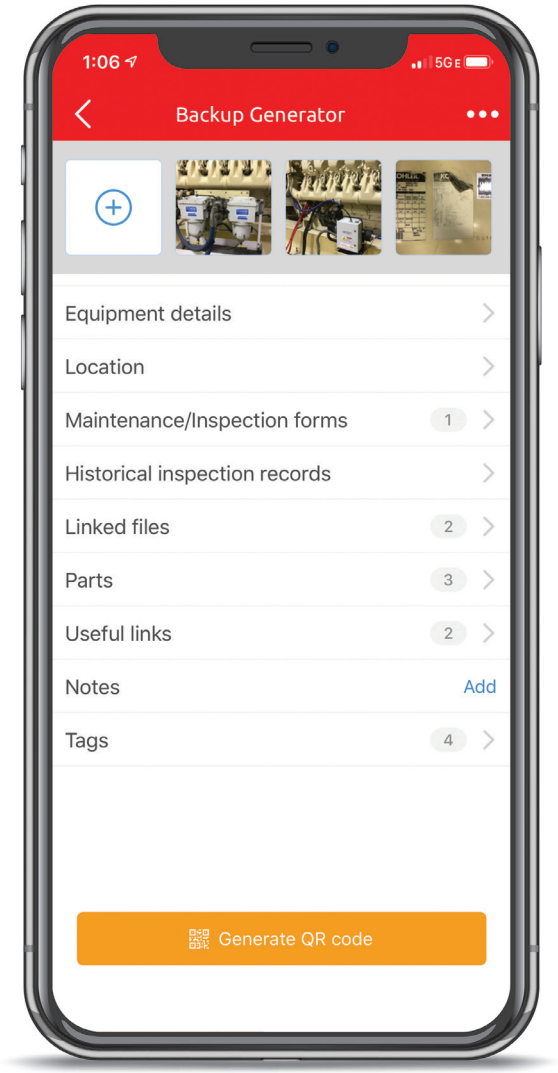
Map-based navigation enables anyone to quickly locate shutoffs and take appropriate action to mitigate injuries or damage.

Access Maintenance Info

From any field location, quickly access O&Ms, warranties, parts lists, inspection reports, training videos and technician notes.

Rapid Emergency Response

Mobile access to emergency information is critical to reduce risks, ensure personal safety and avoid physical damage.



QR Codes

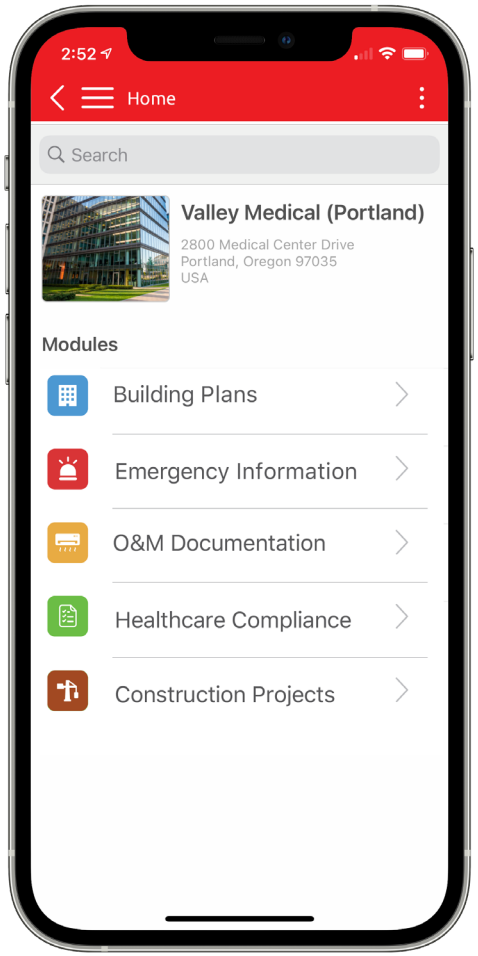
Scan QR codes for instant access to equipment O&Ms, warranties, service reports, product links, parts, photos and more.

Powerful Search

Award-winning OCR technology enables deep search capabilities for plan sets, O&Ms, warranties, contracts, service records and other documents.

Search Your Entire Plan Room

With mobile access to the entire plan room, finding As-Builts for any project is fast. Open, mark-up and share any document in seconds.



Game-changing technology for facilities professionals

Building Plans

Instantly access As-Builts and find shutoffs while working remotely from the field. Eliminate wasted time searching plan rooms and network drives looking for drawings.

Emergency Information

Instantly locate and share building, equipment, life safety and emergency information with first responders to avoid unnecessary damage and protect lives.

O&M Documentation

Quickly locate equipment and maintenance information while working from the job site. Simply tap the screen to access O&Ms, parts, service logs, photos and more.

Healthcare Compliance

Healthcare Compliance is a ground-breaking solution to automate and manage your Environment of Care, Life Safety and Emergency Management compliance documentation.

Construction Projects

Capturing, organizing, and delivering project information at all stages of construction makes for an efficient process.

ARC Does All The Work

ARC will scan, upload and organize all your paper and digital content into our app. We provide comprehensive support, training and continuous updates to your content.
