

ARC Facilities for **Healthcare Compliance**

Healthcare Compliance

Digital technology is rapidly transforming how facilities teams prepare for their compliance surveys. ARC Compliance is leading the way with an artificial intelligence (AI)-powered platform that automatically manages your Environment of Care, Life Safety and Emergency Management compliance documentation.

Fast

Imagine your survey process without binders, copiers, printers or paper. Forget the time-consuming and stressful process of manually updating binders. We're solving the problem in a completely new way that is both fast and efficient. ARC Facilities is game-changing technology in the palm of your hand.

Intelligent

Maintaining a compliant facility requires a continuous focus on documents, dates and details. Working in the background, our AI-powered technology monitors your activity, automatically sends alerts and event notifications, and updates your overall survey readiness.

Simple

When it comes to the Surveyor Document Review process, nothing is simpler than ARC Facilities. Our breakthrough technology simplifies the process by automatically gathering the correct documents, assembling them in the correct order and making them instantly available for sharing during the review process.
